

## HISTORY

1976

The year 1976 is not only a date for STM Team. It represents the beginning of a small company that is now an important reference point in the mechanical transmissions field, thanks to the entrepreneurial capabilities, expertise and firm commitment of the promoting partners (Girotti Tiziano, Vignoli Altero and Lucchini Giuseppe).

1990

Construction of a 10.000 sqm building: our company headquarters in Lippo di Calderara di Reno (Bologna). STM Team has turned from a craftsman reality to a big industrial company specialized in the design and manufacturing of speed reducers. STM Team is nowadays well known in national and international markets, in which it has reached a well-respected position.

1998

In 1998 STM achieves ISO 9001 Certification with the aim of granting a good quality system for the different market needs.

1999

GSM achieves ISO 9001 Certification. Acquisition of GSM in 2000.

2003

STM Team, always looking for new innovative solutions, designs and sells, for the first time in the world, the orthogonal axes skew gearbox with at least two axes of reduction.

2009

STM Team introduces the planetary gearbox for industrial EX series after 2 years of planning and study, in order to develop its own range of products.

2019

Birth of a new production centre, controlled by STM, specialized in precision mechanical processing. Rettifiche Resca, VP Tornitura and MET Carpenterie are members of this centre.

2022

Acquisition of the company Neri Motori Srl, to offer customers a complete and complementary supply service that combines gearboxes and electric motors.

## STM TEAM EMPOWERING YOUR IDEAS

OUR FULL PRODUCT RANGE FOR CONTROL AND POWER TRANSMISSION IS EXPRESSED THROUGH ONE SINGLE PHILOSOPHY: HIGH TECHNOLOGY FOR SUCCESSFUL PRODUCTS.

A unique great force is facing the world of mechanics: STM Team manufactures the widest and broadest range of gearboxes and geared motors. STM Team provides forefront technical solutions in every fields of light and heavy mechanics, according to specific users' requirements.

### MISSION EMPOWERING YOUR IDEAS

Designing and manufacturing innovative and reliable solutions for power transmission and control in the industrial sectors, promoting sustainable development shared worldwide. STM Team is market-driven and strives to be a strategic company with high customer orientation to create long-term partnerships. Our values: transparency, cooperation and dedication.

### VISION KEEPING UP WITH THE TIMES

To be a leader in the design of innovative and efficient solutions.

# COMPANY PROFILE

## SERVICES

### TECH BUTTON CONFIGURATOR

The world of STM Team gearboxes is available for you in all its forms, thanks to:

- 2D and 3D drawings, commercial documents and technical datasheets
- 5 available languages (IT, E, D, FR, SP)
- Compatibility with all new web platforms
- Choice of selection among 150 different formats of 2D and 3D CAD drawings
- Up to 10 different formats of 2D and 3D CAD drawings, available for each download

### INTERACTIVE

With the focus on interactivity and quality of service for customers, STM and GSM provide the opportunity to check "online" the orders status.

### AFTER SALES

A service managed by a dedicated staff to ensure a high standard in terms of quality and response time.

### CATALOGUE ARCHIVE

A digital archive supplies all information for items that are no longer produced.

### RED BUTTON

The service that brings us closer to our customers all over the world and ensures assembly and shipment of the product within 48 hours from the order.

## PRODUCTS

STANDARD

The **Standard** line, thanks to its flexibility in application has the best price-quality ratio.

HIGH TECH

The **High Tech** line is designed to provide the best results in those applications requiring top performance in continual use.

ELECTRONIC

The **Electronic** line is an important reference point in every control integrated system for logistics.

CUSTOM

The **Custom** line provides a good solution to those requests concerning the development of a specifically intended product for customers' special applications.

STM and GSM are ISO 9001, ATEX, GOST and CCC certified. GSM is also a CTI member and EAC EX certified.
